

LUNCH & LEARN SERIES

“INFRARED THERMAL IMAGING”

PRESENTED BY

GORDON MELVIN - MELTECH THERMAL IMAGING

Time: 11:45 am—1:30 pm Date: Apr 28, 2010

**Crowne Plaza Moncton
Main Street
BIN 1005—Main Floor**

Meltech THERMAL IMAGING offers a concise approach to diagnosing and monitoring the condition of any building and its electrical and mechanical operating systems. Perfect for residential, industrial or commercial applications. Their Certified thermographers use this innovative and non-invasive infrared technology to diagnose the problem and deliver solutions that will save you time, money and energy.

Thermal Imaging is a highly effective infrared technology that can diagnose and monitor the condition of any building or machinery. Their Certified Thermographers are trained to provide a composite of thermal and digital imaging as well as a comprehensive diagnostic report in order to educate you on areas of your structure that may need maintenance, repair or even confirm that status of your investment.
