Bullfrog Power, Canada’s 100% green electricity provider, offers a 100% clean, renewable electricity choice to everyone in BC, AB, ON and now NS, NB and PEI.

When you choose Bullfrog Power, Bullfrog’s generators inject renewable electricity onto your local or regional grid to match the amount your home or business uses. Bullfrog’s electricity comes exclusively from wind and hydro facilities that have been certified as low impact by Environment Canada under its EcoLogo^M program instead of from polluting sources like coal, oil, natural gas and nuclear.

Buying renewable electricity for your home or business is an easy, powerful and affordable way to reduce your environmental impact, cause new renewable generation to be built and create a cleaner world for today and tomorrow.
